

Back-to-school shopping tips

Set your student up for a confident, organized start to the school year.

Plan ahead:

Create a simple checklist of essentials so you stay focused and avoid impulse buys.

Set a budget:

Divide spending into clear categories like supplies, clothing, tech, and extras to keep costs predictable.

Check last year's supplies:

Reuse notebooks, binders, and calculators that still work.

Shop sales strategically:

Compare prices online and in-store, and take advantage of tax-free weekends or bundle deals.

Invest in long-lasting gear:

Prioritize items built to withstand heavy use, so you don't have to replace them mid-year.

Involve your student:

Let them choose colors, patterns, or styles to build excitement and ownership over their supplies.

Don't forget wellness essentials:

Stock up on hand sanitizer, tissues, and healthy snacks.
